# PROJECTS

---

## MCKESSON

### *PWC*

Integration of the products and pricing data between Salesforce and SM API, Apache Kafka and Oracle Db Systems with Mulesoft API's hosted on the RTF.

Technologies : Anypoint Platform , Salesforce, SM API's , Oracle Db

## COPPERPOINT INTEGRATION

### *PWC*

Migration of the existing Java Services to Mule4, while connecting to Postgres, Webservices where services exposes policy related data to the consuming Applications , Services are deployed on Cloudhub, Each application shares the data in Json or XML format..

## HERTZ INTEGRATION

### *Netrovert India Pvt Ltd*

Migration of the existing Mule 3 api to Mule4, while connecting to SFDC, Oracle, AMQ where services exposes data of customers as well as services,policy and payments details which will be consumed by the hertz ui applications.

## GCAPI

### *HSBC Software Development Pvt Ltd*

GCAPI is a Product which provides Global API endpoint for retrieving the customer information from multiple source systems

## NEW YORK UNIVERSITY HEALTHCARE MANAGEMENT

### *Deloitte India Pvt Ltd*

NYU's Student Health Center (SHC) is a campus resource and service center for all matriculated students. We offer universal, hassle-free appointment-based and walk-in medical and counseling services at either no cost or very reduced cost to all NYU students, regardless of insurance coverage. Our goal is to add great value to the NYU experience for students and great comfort in knowing that a safety net for basic healthcare exists at NYU

## HEALTHFIRST INTEGRATION

### *Deloitte India Pvt Ltd*

NWe interact with multiple databases and webservices to fetch the information and provide all these info to the end users.All the API's are deployed on cloudhub and salesforce consumer will consume the all these information.

Headquartered in Jacksonville, Fla., the client employs more than 41,085 people worldwide and holds leadership positions in payment processing and banking solutions, providing software, services and outsourcing of the technology that drives financial institutions.

# PROJECTS

---

## STARTZ PLAY

### *Whishworks Pvt Ltd*

NSTARZ Play Arabia is a video-on-demand company, offering premium Hollywood content in a multi-device subscription. I joined the company 4 month before the official launch of the service as the ESB and Backend Tech Lead. The ESB, built in Mule ESB, serves as an integration middleware between client applications and all the business systems.

## CHC BANK INTEGRATION

### *Whishworks Pvt Ltd*

CHC have been hosting and maintaining their digital banking environment offshore over a number of years. In order to facilitate maintenance and also review the current digital banking processes, CHC have recognized the need to build a new onshore digital banking environment aimed at mobile and online customer experience. In order to facilitate these using this application developed some interfaces and Batch jobs

## SNET, SUNTRUST BANK

### *IBM*

SunTrust goal to become more customer-centric in their interactions with new and existing customers. SunTrust wants to develop a Service Network (SNET) that enables the applications to be loosely coupled. Channel link project is for integrating the all the channels (Contact Center, ATM & Teller, Online, Mobile banking, IVR, Branch, CRFR etc) with the existing legacy systems such as Mainframes. Channel-link created an opportunity for greater flexibility in achieving business strategic initiatives by introducing SOA technology and implemented a multi-channel approach to service and sales that delivers on the concepts of Simple, Easy, and Convenient banking by enabling consistent client interactions via e -banking, IVR, Contact Center, Branch, and Teller. This project will establish the infrastructure and web service foundation for the front -end (ARGO, PEGA, etc) systems and work closely with backend to leverage available appropriate capabilities. The Service net will have the responsibility for the system integration needed to provide channel link with real time access to backend applications (Mainframe, WebSphere Customer Center (WCC) etc). ChannelLink is fundamental to realizing the Play to Win Strategy and goals. Channel Link creates and helps deliver significant revenue opportunities in the areas of new client activation, Relationship Growth and Client retention across the entire client relationship. SNET Production supports more than 97 services for the consumers -ARGO, Mobile Banking EIVR and e-Banking.

## GATEGOURMATE - IFX4S

### *Marlabs Ind pvt ltd*

NTHE ESS-ESO Communication id about handling the Flight Events from ESO and to generate the fss Based on the Fss Objects.

## INVESTOR RELATION

### *Cellarch technologies*

Investor Relation System is system used for automation of the workflow execution. The system acts as an intermediate system where the client's representative will communicate with the Doctors in US and takes appointments of various purposes. System will take Doctor based on his choice to various states and accordingly assigned to client's representative for respective actions to be performed.

It involves intercommunication between various modules (like fax system, email system and workflow system) and company owned websites.
